## Face Covering Policy

- ⇒ All adults working at GIA will wear a face covering while working with scholars or in common areas unless eating. Any adult that comes on campus must wear a face covering for the entire duration of their visit.
  
- ⇒ Scholars wear face covering in the classroom if not 6 ft away from others, unless eating.
  
- ⇒ GIA will have masks available for purchase. If you plan to use your own face mask, the mask must be plain, with no words or pictorial or symbolic representations that may be considered controversial and/or would detract from the orderly environment or mission of our school.
  
- ⇒ Scholars do not need to wear face covering in PE or at recess.
  
- ⇒ Anyone (staff or scholar) who has a medical condition, a disability, mental health, or behavioral need that makes it difficult to tolerate wearing a face covering are exempt. A doctor's note is required to be on file in the Nurse's office.
  
- ⇒ Preschoolers are not required to wear a face covering.
  
- ⇒ If you forget your face covering, please go directly to the Nurse's Office while making the best attempt to cover your nose and mouth. There will be additional face coverings available.
